Happy 16th Birthday Zulema!

This month on my birthday I had time to reflect on my life, how I came to be here @ Aguaymas Ministries and how my experience here has molded me over these past 4 years.

Due to the negligence of both my parents who have been lost to the streets and drugs since I was little, I was left in the care of my Grandmother. I acknowledge that I did not appreciate the opportunity I had with her then but with all my heart I've prayed for the chance to ask her forgiveness for the way I treated her during our time spent together. It was because of my attitude and bad behavior that I ended up getting picked up by DIF Emplame.

DIF brought me to the mission and I've made some changes in my life; becoming part of this beautiful family. I have worked hard in school, finishing strong this year to enter into the best high school I can and study Industrial engineering. At AYM I learned about The Love of Christ and that I am worthy of His Mercy, despite my mistakes. I gave my life to Christ, believing that He has a purpose for me because He loves me. I'm praying for the chance to see my family again but I'm grateful for my mother Maggie and all my brothers & sisters I have found here!
